## To Whom it may concern

**Dear Sirs,**

**We would like to inform you that our company Oilfield Exploration Business Solutions SA (formerly Rompetrol SA) part of KMG International Group, is ready to offer for rent a TD 160 CA-A7 self-propelled drilling/workover rig,**

This drilling/workover rig manufactured by UPET Targoviste is intended for drilling and workover works on oil and gas wells, with a load up to 160 tf, mounted on the 87.1080 MFEG chassis (14x10), equipped with CATERPILLAR engines.

The rig has a simple kinematic scheme with high reliability and easy maintenance. The Top Drive function leads to a reduction of the operating time at the mouth of the sample. The driving of the actual rig and chassis on which it is mounted is done with a drilling group composed of two CAT C15-ACERT engines, two Allison M 5610 AR hydraulic and the related hydraulic converters TC 682.

The MU-160 mast is double, U-shaped, equipped with a derrick-bridge. The mast is lifted in the operation/working mode with two hydraulic cylinders - simple effect.

The substructure is foldable and allows the storage of pipe stands (18 m) at the rig derrick on the seatback cushions.

Other equipment: drilling winch has 900 HP at the entrance and is equipped with hydraulic brake FH 460, drawwork GF 200-5x29, hook crane MC 160-4x29, rotary table MRL-275, Top Drive NorDrill for 250 tf with power 500 hp, 4 pcs; 400 kVA P450 Perkins generator sets, 4 m<sup>3</sup> air preparation unit with 2 pcs. Atlas Cooper compressors, BOP 13 5 / 8in x350 bar (made in China) composed of Shaffer type
